Asset allocation models apply to select variable annuities only.

Payments made to an asset allocation model will be invested according to the model investment strategy. Rebalancing will occur monthly.

If requesting a total transfer, you may allocate 100% to an asset allocation model.

If you select an asset allocation model, you must also submit a completed registered Investment Advisor Agreement, form number 40278.

Asset allocation models
○ 100% model A conservative
○ 100% model B moderately conservative
○ 100% model C moderate
○ 100% model D moderately aggressive
○ 100% model E aggressive

Asset allocation models (RetireReady℠ One only)
○ 40/60 Model - Moderately Conservative
○ 60/40 Model - Moderate
○ 70/30 Model - Moderately Aggressive

Future allocation of choices

○ These changes apply to future payments
○ These changes apply to future rebalancing
○ These changes apply to future Dollar Cost Averaging

I understand that the account value in the Goldman Sachs VIT Government Money Market Fund - Service Shares must be kept at or above the amount which will permit the dollar cost averaging transfers requested; otherwise these transfers will end. This request is in lieu of the requirement for individual written transfer requests. I may also change or terminate these transfers by written notice to Genworth Life & Annuity/ Genworth Life of New York. or by telephone if proper authorization has been received by the home office. Dollar cost averaging does not ensure a profit or protect against a loss
