## IMPORTANT INFORMATION

The following information is designed to help you better understand this performance report. Please read carefully and refer back to this section if you have any questions.

***This report is authorized for use only when preceded or accompanied by a current product prospectus, which describes investment objectives, risk factors, fees and charges that may apply, as well as other important information. Please read the prospectuses carefully before you invest or send money.***

### About Us...

#### Issuing Insurance Company

Genworth Life Insurance Company of New York (Genworth Life of New York)  
600 Third Avenue  
New York, NY 10016

#### Principal Underwriter

Capital Brokerage Corporation  
6620 West Broad Street Building 2, Richmond, VA 23230  
Member FINRA

Genworth Life Insurance Company of New York and Capital Brokerage Corporation are members of Genworth Financial.

### About the Product...

Variable annuities are long-term investments designed for retirement purposes.

Variable products are sold by product prospectus, which describes investment objectives, risk factors, fees, and charges that may apply (e.g., mortality and expense, administrative charges, and surrender charges). The product prospectus also covers other features such as the death benefit and annuitization options.

#### Withdrawals/Surrenders

You may withdraw/surrender all or a portion of the contract value. We will not permit a withdrawal that is less than \$100 or that reduces contract value to less than \$1,000. If your withdrawal request would reduce contract value to less than \$1,000, we will surrender your contract in full. Surrender charges may apply.

Withdrawals/surrenders have the effect of reducing the contract value and any death benefits. Withdrawals/surrenders of taxable amounts are subject to ordinary income tax, and if taken prior to age 59½, an additional 10% federal penalty tax may apply.

**RetireReady Retirement Answer NY** is a scheduled purchase payment variable deferred annuity, policy form NY1162 3/01, only available in New York. Ask your registered representative for details.

**All guarantees, including the guaranteed minimum retirement payment, Guarantee Account and death benefit, are based on the claims-paying ability of Genworth Life of New York. The guaranteed minimum retirement payment also depends on all required purchase payments and other contract requirements being satisfied.**

#### Portfolio

The value of a portfolio will fluctuate and, upon redemption, portfolio shares may be worth more or less than the original cost.

These investment portfolios are not available to the general public directly and are only available in variable annuity and variable life insurance products. No assurance or representation is made that the investment results of any of the product's portfolios will be comparable to the investment results of any other similar portfolio available to the general public. This is true even if the other portfolio has the same investment advisor or portfolio manager, and/or has a similar name.

#### Withdrawals/Surrenders

Withdrawals/surrenders may be subject to surrender charges and ordinary income taxes and, if taken prior to age 59 1/2, a 10% federal penalty tax.

Withdrawals/surrenders reduce the death benefit, contract value, and surrender value and may result in a reduction or forfeiture of the guaranteed minimum retirement payment.

### Fees & Expenses...

#### Asset Charge

We will deduct from the Subaccount an amount, computed daily, equal to an effective annual rate of 1.50% of the average daily net assets of the Subaccount. We assess this charge when we compute the net investment factor. The asset charge reduces the value of Accumulation Units and Annuity Units. The charge consists of an administrative expense charge at an effective annual rate of 0.15% and a mortality and expense risk charge at an effective annual rate of 1.35%.

### Surrender Charge

Performance results labeled "Contract Surrendered" reflect the deduction of a surrender charge. The surrender charge is a percentage of the lesser of purchase payments made to date and not previously taken as withdrawals/surrenders or the amount taken and varies by the contract year of surrender as shown in the following table:

Contract Year of Withdrawal/Surrender	1	2	3	4	5	6	7	8	9+
Surrender Charge	9%	8%	7%	6%	5%	4%	3%	2%	1%

### Retirement Payments

RetireReady Retirement Answer NY is intended to provide a series of monthly retirement payments. If instead an owner chooses to receive a lump sum or other payout option, the guaranteed minimum retirement payment provided by the contract will be forfeited. There may be other investments and insurance products that are more suitable. Consult the product prospectus for detailed information.

### About Past Performance...

These returns are based on the performance of the GEI Investments Funds, Inc. Total Return Fund - Class 1, which is the only Subaccount currently available in this contract. The value of the Subaccount will fluctuate and, upon redemption, units may be worth more or less than the original cost.

Performance results are calculated as if all the capital gains and dividends were reinvested. Performance results assume a \$1,000 initial Scheduled Installment at the beginning of the periods shown with no withdrawals/surrenders taken or additional Scheduled Installments during the period. Returns for periods of less than one year are not annualized. The items listed in the Fees & Expenses section were deducted from the portfolio's performance. Performance results labeled "Contract Surrendered" assume that the contract was surrendered at the end of the periods shown and reflect the deduction of a surrender charge. The surrender charge varies by the contract years since any purchase payment as described in the Surrender Charge section. Performance results labeled "Contract Not Surrendered" are calculated at the end of the period shown but do not deduct surrender charges.

VA Separate Account 1 average annual compounded total return figures are calculated at the end of the periods shown, unless a portfolio was not available in the Separate Account during those periods.

### Standardized Performance

Maximum charges for optional riders are reflected. Performance is calculated from the Adoption Date.

### Non-Standardized Performance

Performance is calculated from the underlying portfolio's Inception Date. This date may be different from the date the portfolio first became available in the contract. Performance that predates the adoption of this portfolio in the contract is therefore hypothetical in nature; it is noted in the tables with the symbol "H". The return is calculated as if the portfolio had been in the contract for the period shown.

Performance numbers are based on values provided by the portfolio management companies and are believed to be accurate; however, Genworth Life of New York cannot independently verify them.

### Adoption Date

The Adoption Date is the date the underlying portfolio became available in VA Separate Account 1.

### Portfolio Inception Date

Portfolio Inception Date is the date the Securities and Exchange Commission (SEC) declared the underlying portfolio effective. Portfolio Inception returns are calculated from the portfolio Inception Date and not from the Adoption Date.

### Explanation of Symbols

"NA" indicates that the performance for the period shown is not available. If a portfolio has not been available for the period shown, total return for the period it has been available, if any, is shown in the "Since Inception" and "Since Adoption" columns.

# RetireReady Retirement Answer NY

a variable annuity issued by

**Genworth Life Insurance Company of New York**

## Average Annual Total Return Performance Report 04/30/2025

See Important Information beginning on page 1 for additional information.

The historic performance figures quoted represent past performance. The past performance illustrated is no guarantee of future results, and current results may be lower or higher than the figures quoted. The return and principal value of a portfolio will fluctuate and may be worth more or less than the original cost. The maximum surrender charge on this product is 9%.

Performance values marked "\*" predate the availability of the portfolio in the contract and are therefore hypothetical in nature. These returns were calculated as if the portfolio had been in the contract for the period shown.

### GE Investments Funds, Inc. Total Return Fund - Class 1
